

15<sup>th</sup> September 2020

Dear Parents/Carers,

You will have heard that there has been a significant increase in COVID-19 cases reported within Knowsley, you may well have seen coverage of this in the local media. It is therefore necessary for us to consider further steps to keep us all safe and well at school.

At present Knowsley has been identified as an “area of concern” for Government, which means that our testing data is being rigorously reviewed by the Government and Public Health England, along with the actions we are taking to address the spread of the virus here in Knowsley. Analysis of our local data tells us that there is a high prevalence of the virus in females, particularly those aged under 35 years.

We are also aware that a small number of Knowsley schools have had to send class bubbles home to self-isolate. As part of the council’s action plan to address the current situation, all schools have been asked to introduce further precautionary measures which will be introduced at school. It is likely that as the situation develops, I will write to you again if additional measures need to be considered, however at present I request that with immediate effect from Wednesday 16<sup>th</sup> September we are asking:

- All adults to wear a face covering when visiting or entering the school premises
- Only one adult to enter the premises for drop off and pick up
- That you arrive and leave promptly when dropping off/ collecting your child – please do not congregate as we know that the virus is easily transmitted from person to person

The Trust and school have already recommended that both students and staff wear face coverings when social distancing cannot be adhered to.

Hopefully, these extra measures will help reduce the virus spreading in our school community and prevent year group bubbles being sent home. I will write to you again should we be asked to introduce any further measures.

Yours faithfully

Miss J Gallagher  
Interim Principal

We Seek the Best
